

Create News room page component using base page component.

The screenshot shows the AEM component tree for 'newsRoomPage'. The tree structure is as follows:

- newsRoomPage
  - cq:dialog
    - content
      - items
        - textfield
        - pathfield
  - newsRoomPage.html

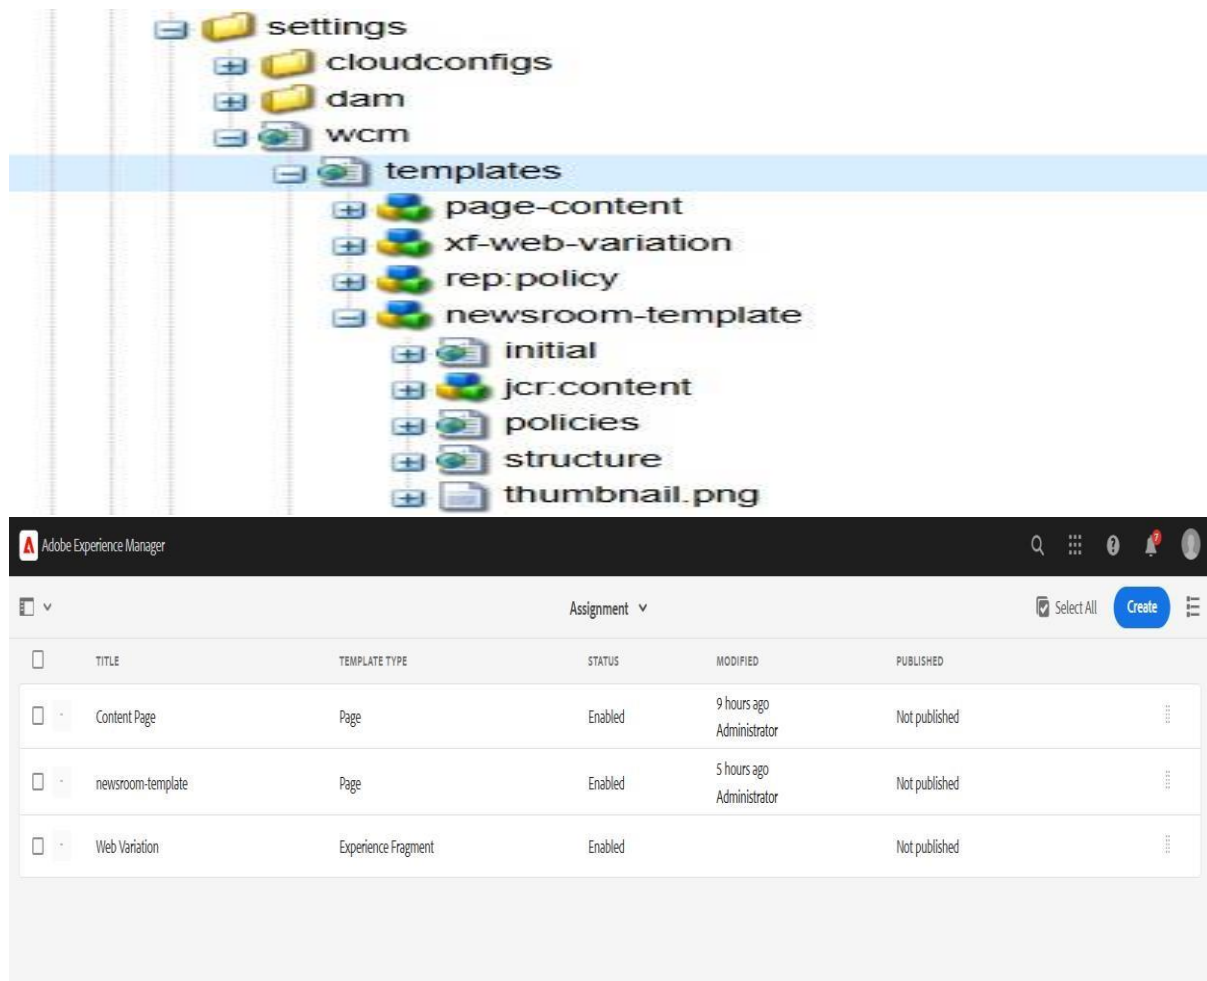

Below the tree is the 'Properties' tab with the following data:

	Name	Type	Value
1	componentGroup	String	Assignment - Content
2	jcr:created	Date	2025-03-31T21:05:33.463+05:30
3	jcr:createdBy	String	admin
4	jcr:primaryType	Name	cq:Component
5	jcr:title	String	News Room Page
6	sling0:resourceSuperType	String	core/wcm/components/page/v3/page

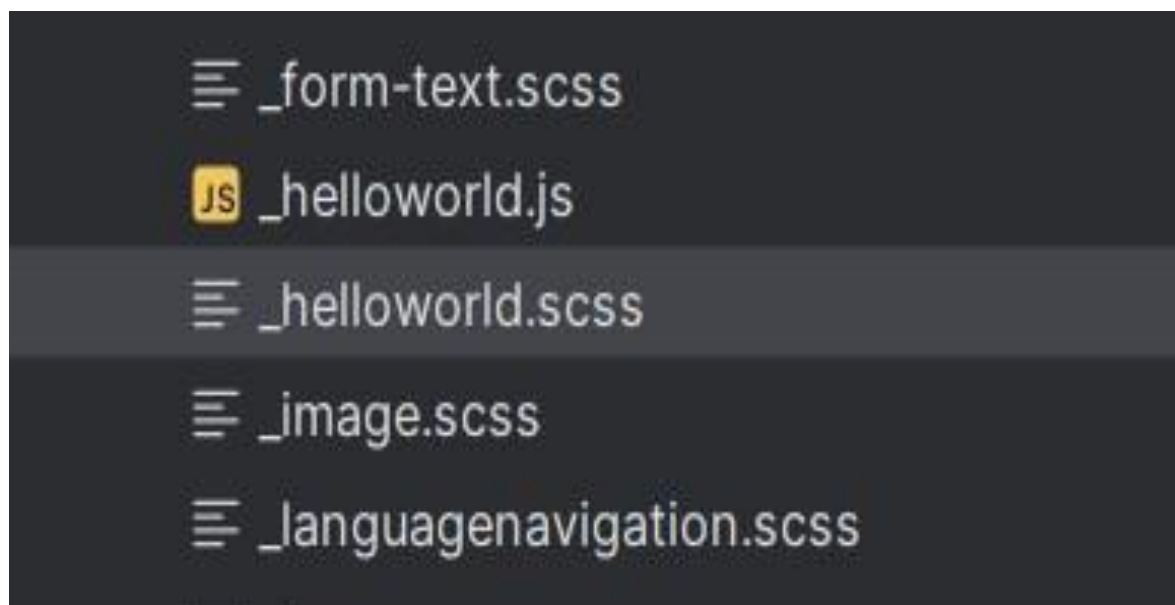

Create custom page property as NEWS configurations where I can author the default news image. Read More CTA for News Article

```
1 <?xml version="1.0" encoding="UTF-8"?>
2 <jcr:root xmlns:sling="http://sling.apache.org/jcr/sling/1.0"
3     xmlns:jcr="http://www.day.com/jcr/cq/1.0"
4     xmlns:cq="http://www.day.com/jcr/cq/1.0"
5     jcr:primaryType="cq:Dialog"
6     cq:dialogMode="floating"
7     title="News Room Configurations">
8     <content jcr:primaryType="nt:unstructured"
9         sling:resourceType="granite/ui/components/coral/foundation/container">
10         <items jcr:primaryType="nt:unstructured">
11             <newsImage jcr:primaryType="nt:unstructured"
12                 sling:resourceType="granite/ui/components/coral/foundation/form/fieldLabel="Default News Image"
13                 name="./newsImage"
14                 allowUpload="true"/>
15         </items>
16     </content>
17 </jcr:root>
```

**Create News room template type by using news room page component**

**Apply the styling to news/ hello world component from ui.frontend folder**

```
.cmp-helloworld {
  background-color: lightblue;
  padding: 15px;
  border-radius: 5px;

  h2 {
    color: blue;
  }

  p {
    color: darkgray;
  }
}
```

**Additionally you can create custom style to apply above styling to hello world or news component.**

The screenshot shows an IDE with a code editor. The top bar displays the following tabs: README.md, <> newsroom.html x, </> \_cq\_dialog\content.xml, and © NewsRoomPageModel.java. The code editor contains the following XML template:

```
1 <sly data-sly-use.news="com.myTraining.models.NewsRoomPageModel">
2   <div class="cop-news-component" style="background-image: url('${news.newsImage @ con'
3     <h2>News Title</h2>
4     <p>News Details</p>
5     <span class="date">Published Date</span>
6   </div>
7 </sly>
8
```

The code is displayed in a dark-themed editor with line numbers on the left. A right sidebar shows icons for a bell, a user profile, and a monitor.
