

## 1.What is MSM, blueprint, live copy and rollout?

### Multi-Site Manager (MSM):

AEM's **Multi-Site Manager (MSM)** allows you to manage multiple websites that share content and structure efficiently. It helps maintain consistency across different regions or language versions of a site.

### Blueprint:

- A **Blueprint** is the **source or master site** from which multiple **Live Copies** can be created.
- It defines the structure, design, and content of the site.

### Live Copy:

- A **Live Copy** is a website that is linked to the **Blueprint** and inherits content from it.
- Changes in the Blueprint can be **rolled out** to Live Copies.

### Rollout:

- A **Rollout** is the process of **pushing updates from the Blueprint to Live Copies**.
- Rollouts can be triggered manually or automatically.

## 2what is language copy?

A **Language Copy** is a version of a site created for a specific language, where content is translated manually or using translation services. Unlike **MSM**, a Language Copy does not inherit content dynamically—it is just a copy that can be modified independently.

## 3Create a site using MSM and us en should be

source.Reference:<https://medium.com/@toimrank/aem-multi-site-manager-cd73a9077cba>

### Step 1: Set Up the Blueprint (Source Site)

1. **Navigate to AEM Start Page > Tools > Sites > Blueprint Configuration**
2. **Create a New Blueprint:**
  - Title: Global Blueprint
  - Root Path: /content/myTraining/us/en
  - Rollout Configurations: Standard Rollout Config

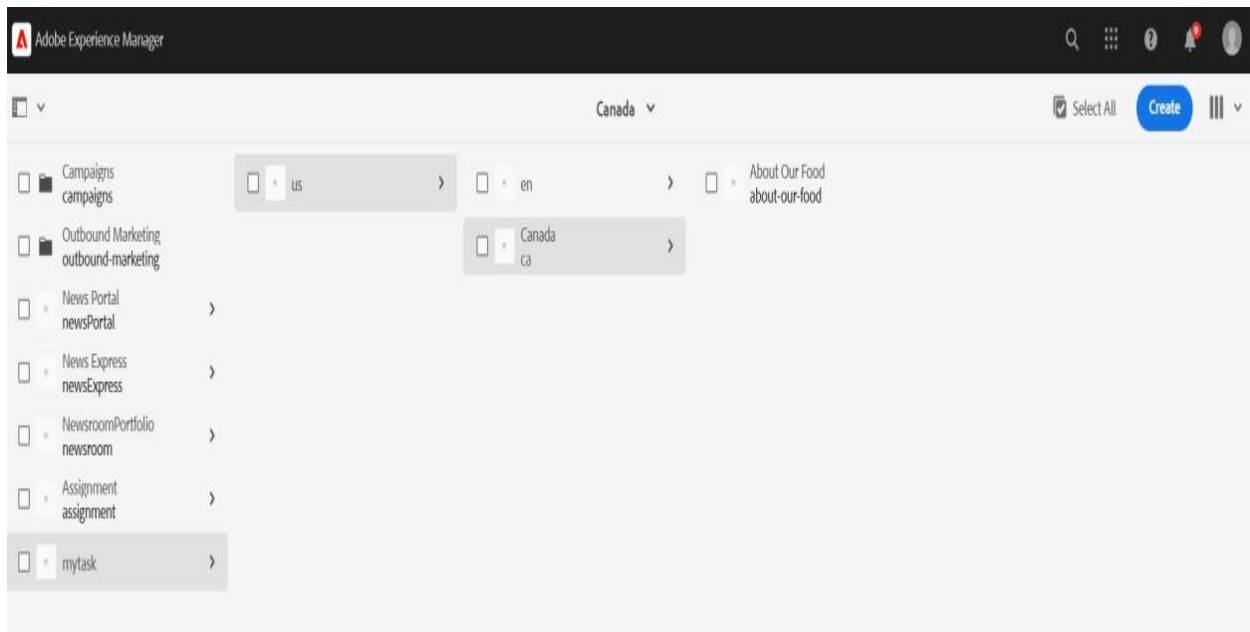

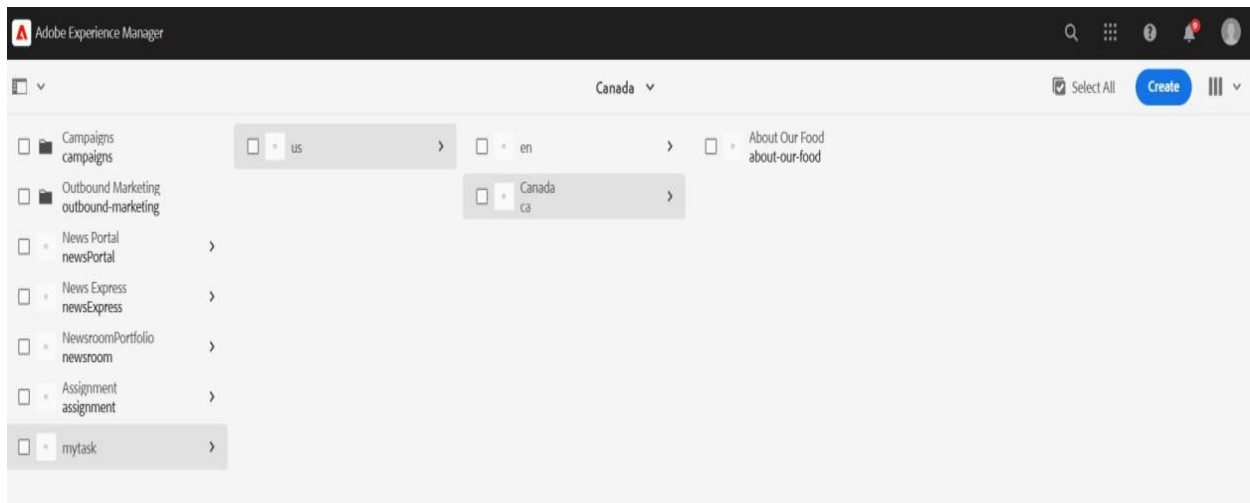

### Step 2: Create a Live Copy

1. **Navigate to AEM Start Page > Sites**
2. **Select /content/myTraining/us/en**
3. **Click Create > Live Copy**
4. **Configure:**

- **Destination:** /content/myTraining/fr/fr
  - **Title:** France Site
  - **Rollout Configurations:** Standard Rollout Config
5. Click **Create & Open**

### Step 3: Configure Rollout Rules

1. **Go to Blueprint Configuration** and select `us/en`
2. **Enable Automatic Rollout**
3. **Test the Rollout:**
  - Edit content in `us/en`
  - Click **Manage Publication > Rollout**
  - Check if changes appear in `fr/fr`

Properties Delete 1 selected (escape) X

Blueprint Configurations		Select All
CONFIGURATION	SOURCE	
<input type="checkbox"/> Experience Fragments	/content/experience-fragments	
<input checked="" type="checkbox"/> Practice Blueprint	/content/myTraining/us/en	

**4 Create this page <https://www.mcdonalds.com/us/en-us/about-our-food.html> and author the page using components use the content/images from above page.**

### Step 1: Create the Page

1. Go to AEM Start Page > Sites
2. Navigate to /content/myTraining/us/en
3. Click **Create > Page**
4. Select Content Page Template
5. Title: About Our Food
6. Click **Create & Open**

### Step 2: Author the Page

#### (A) Header and Hero Image

1. Drag a **Teaser Component**
  - o Title: About Our Food
  - o Image: Download from [McDonald's page](#)
2. Save the changes
